The "OUTLAST Daily Fantasy Sports" app was created to provide a more inviting and easy-to-use approach to daily fantasy sports (DFS) gaming for casual fans. "OUTLAST" delivers a game that has no rosters, no salary caps and no sharks to entice new DFS game users. "OUTLAST" has an easy and pro mode - easy mode displays app content so that a novice DFS gamer can understand the games and payouts, while the pro mode app layout will appeal to hardcore DFS fans.

"OUTLAST" launches with three games, described below. Please visit www.outlastdfs.com for all the game details and instructions on how to start playing.
